

Engagement Report

This Engagement report has been generated using facial recognition and eye tracking technology. The technology used captures the attention score by tracking the eye movement engagement of the child when they are focusing on the screen while reading the storybooks. The attention score is the metric which is calculate by the formula:

Formula

Attention Score Generated:

Name of the Book: The Example Book2
Engagement Duration: 2 hours 1 minutes
Attention Score: 1

Recommendations:

- Provide a balanced diet and routine
- Engage in physical activities and hobbies
- Teaching problem solving skills to your child in day to day life
- Increase concentration in your child by engaging in activities like puzzle, assisting with cooking, observing
- Use a variety of novel and stimulating activities rather than boring worksheets.
- Create a quiet and organized study area free from distractions
